

To whom it may concern:

I am writing in reference to the Urban Krew dance company. The company have now been working with the school since the beginning of the spring term, and have been a great success.

The school opted for the street dancing workshops, each session lasts for 1 hour and run on a weekly basis. The class size is ever increasing and we average 25 places each week from a cohort of 170. There is a mix of boys and girls from years 5 and 6 who religiously attend each week.

Urban Krew have shown that they are a reliable, punctual and a dedicated team. Paul has a fantastic relationship with our pupils, some of which do have challenging behaviour. He has inspired several of our children to attend his weekend classes and the skills the children have gained are becoming evident in the schools timetable dance lessons.

Feedback from pupils and parents are both positive and as a school we would highly recommend Urban Krew working within a school environment.
